

NILFISK AERO BATTERY

A new formula for freedom

Built for fast, efficient cleaning and dust extraction. Engineered for durability and ease-of-use. Meet the all battery-powered AERO Battery Vacuum range—ideal for quick in-and-out jobs in any conditions, wet or dry. The advanced Nilfisk lithium-ion battery provides up to 65 minutes runtime with 10Ah Ecomode and an 80% charge in just 55 minutes.

Top features and benefits also include

- **Long-lasting battery performance** for uninterrupted efficiency, reducing the environmental impact
- **Swappable battery design** — option to purchase an extra battery for uninterrupted runtime
- **Ideal for quick in-and-out jobs** in any conditions, wet or dry
- **Cordless freedom** — operates anywhere, no outlets needed
- **Lightweight and ease-of-use** — only 8,3 kg for effortless handling and manoeuvrability
- **Low noise operation** — ideal for noise-sensitive environments
- **Certified safety** — L- and M-class certified for proven safety
- **Uninterrupted performance** — strong suction combined with Push&Clean™ filter cleaning keeps efficiency high with minimal downtime
