

NONSTOP PERFORMANCE MADE SIMPLE

Discover the new standard in metal chip collection and oil/coolant recovery

Built to keep moving, the OIL230 drives nonstop performance with simultaneous vacuum and discharge, streamlining every step of chip and oil/coolant recovery. This machine never quits and more importantly, neither does your operation.

Designed for nonstop performance:

- **Vacuum and discharge simultaneously** – Uninterrupted handling of high volumes of chips and liquids for smooth workflows
- **Stable by design** – A low center of gravity ensures safer handling and makes movement quicker and more comfortable
- **More capacity, fewer stops** – External pump allows full use of the 70L tank for longer runs without emptying
- **Quick, tool-light servicing** – External pump access speeds up maintenance and boosts uptime
