**WEEE Declaration**

The objective of Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE) is to promote sustainable production and consumption through the prevention, re-use, recycling, and recovery of electrical and electronic waste.

Nilfisk supports these objectives and integrates environmental responsibility into its product design, material selection, and end-of-life management processes.

The WEEE Directive applies under an open scope, covering all electrical and electronic equipment unless specifically exempted, and establishes requirements for producer responsibility, including registration, reporting, marking, and environmentally sound treatment of WEEE.

Nilfisk A/S hereby declares compliance with Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), as amended, as implemented in applicable national legislation in the countries where Nilfisk places products on the EU market.

Nilfisk continuously monitors regulatory developments to ensure ongoing compliance.

Yours sincerely,

Nilfisk A/S
