VP300 R PINK EDITION

Life is pink. Thank you for bringing hope

Ignite hope & support now

BREAST CANCER NOW

NILFISK

Urgency demands solidarity — let's act now

Why is breast cancer research so important:

- More people are surviving breast cancer than ever before. That's thanks to research. But breast cancer is far from a done deal.
- Too many people are still diagnosed late, once the disease has spread and become incurable. We have treatments, but not enough, and often they come with gruelling side effects. And breast cancer continues to take far too many lives. Around 11,500 women and 90 men every year in the UK. Almost all of them from metastatic breast cancer.
- Breast Cancer Now have a bold vision. That by 2050, everyone with breast cancer will live and live well. But to make that a reality, we need to go further and faster than ever. And world-class research is key to that.

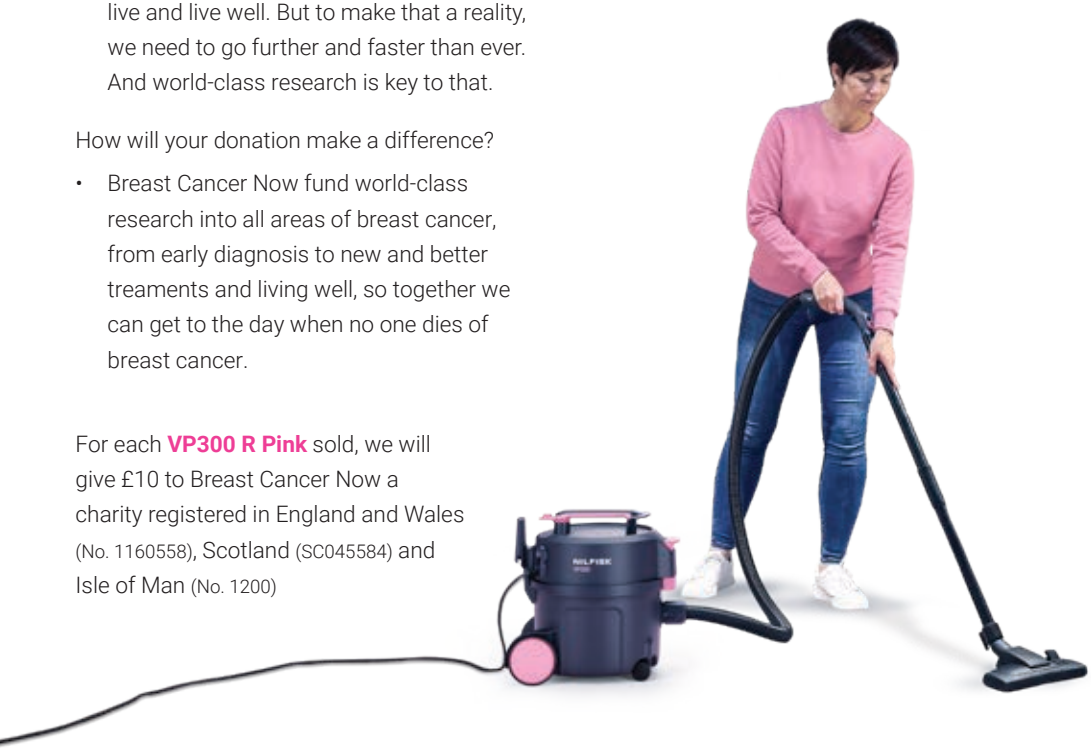

How will your donation make a difference?

- Breast Cancer Now fund world-class research into all areas of breast cancer, from early diagnosis to new and better treaments and living well, so together we can get to the day when no one dies of breast cancer.

For each **VP300 R Pink** sold, we will give £10 to Breast Cancer Now a charity registered in England and Wales (No. 1160558), Scotland (SC045584) and Isle of Man (No. 1200)

Every year, **2.3 million people worldwide** are diagnosed with breast cancer. And according to WHO projections, that number could rise by **38% by 2050 — reaching 3.2 million new cases annually.**
