

MH RANGE

A new formula for performance

Meet our MH range of hot water high-pressure washers—designed to cut waste, emissions, and downtime efficiently.

- **Durable pumps and rugged design power the MH range through nonstop cleaning**—tackling even the toughest jobs to keep your operation cleaner and more efficient.
- **New industry-leading patented boiler technology** delivers fuel-efficient, biofuel-ready performance with faster operation.
- **With optimised nozzles and best-in-class pumps**, the MH range delivers efficient, reliable cleaning for superior performance and uptime.
- **Featuring intuitive, coloured touchpoints and a user-friendly interface**, the MH range delivers consistent professional results regardless of skill level.
- **A new detergent system enables more accurate dosing**—cutting detergent costs, and minimising overuse and environmental impact.
