

VP300, VP400, VP500 & VP700

# A new formula for simplicity

# NILFISK

# Compact—and now complete: Our range of compact dry canister vacuums

Ready for anything! Our complete range of compact dry canister vacuums meets every cleaning challenge.

Engineered to deliver superior performance. Designed to ensure ease and efficiency. Built for safe, comfortable operation—discover our lineup of compact dry canister vacuums.

### VP300

## The reliable everyday vacuum

Compact and lightweight, the upgraded VP300 now features best-in-class net filling capacity, enhanced cord handling, and a reduced sound level.

### The top features and benefits include:

- **Color-coded touchpoints** — make guidance intuitive for faster operation, even for first-time users.
- **Tool-free maintenance** — lets you quickly access bags and filters, reducing downtime and simplifying cleaning.
- **Foot-reachable power switch** — for hands-free control and hassle-free operation.
- **Quiet operation** — expands cleaning hours without disturbing, creating a more comfortable environment for employees.

### VP400

## Convenient, efficient cleaning

Relax and rewind! The VP400 vacuum features reliable, time-saving rewind functionality, best-in-class net filling capacity, and a reduced sound level.

### The top features and benefits include:

- **Color-coded touchpoints** — make guidance intuitive for faster operation, even for first-time users.
- **Compact and agile** — well-suited for effective cleaning in congested environments.
- **Foot-reachable power switch** — makes it simple to get started and transition to other areas.
- **Simple to inspect and replace the filters** — ensuring sustained suction power and cleaning performance.

## VP500

### Flexible and fast

Full power—no cord! The new compact VP500 runs entirely on battery, delivering outstanding performance, saving time, and reducing trip hazards.

#### The top features and benefits include:

- **New battery technology** — longer runtime, faster charging, and extended lifespan with more charging cycles
- **Lightweight design** — just 5 kg plus 1.8 kg battery, up to 50% lighter for easier handling and less fatigue.
- **Foot-operated switch** — minimizes bending to reduce back strain, enabling faster, hands-free cleaning.
- **High suction performance** — powerful dirt and dust capture reduces repeat passes and cuts cleaning time.
- **Quick and flexible cleaning** — ideal for on-the-go or daytime tasks, and perfect for busy schedules.

## VP700

### Premium performance

Next-level performance. Low-level noise. The upgraded VP700 offers excellent maneuverability and a detachable cord, extending the vacuum's lifespan.

#### The top features and benefits include:

- **Modernized design** — delivers strong suction with minimal noise, creating a productive and disruption-free environment.
- **Top-tier capacity** — 50% more net fill vs VP300 means fewer bag changes, less downtime, and smarter, more economical operation.
- **Delivers even greater performance** — offering superior TCO for maximum value and efficiency.
- **Ergonomic carry handle** — improves comfort, control, and reduces strain during use and transport.
