CLEANING SOLUTIONS FOR EDUCATION

Make learning spaces shine

NILFISK

Inspired to work, learn and grow

For great minds to thrive, cleanliness is key. A well-maintained educational environment directly impacts student and staff well-being, reducing not only distractions but also illnesses and absenteeism and boosting focus.

Our advanced cleaning solutions offer quiet, dependable performance with a focus on energy efficiency and environmental responsibility—perfect for schools, universities, and learning spaces.

Our equipment helps your cleaning team work efficiently and effectively, ensuring your space is clean and well-maintained with ease.

94%

of students and parents notice the level of clean

85%

of students and parents consider cleanliness very or extremely important

88%

of students say that the lack of cleanliness distracts from learning

---

Together, let's create a cleaner future for everyone to work, learn and grow.

NILFISK

Advance | Clarke | VIPER

Reliable performance and outstanding results. From A-Z

No matter the surface—hard floors, soft floors, even those hard-to-reach areas—our high-performing cleaning solutions deliver long-term reliability powered by environmentally responsible technologies.

Soft floors/carpet

Vacuum cleaners for hard and soft floors

Must-have vacuum features:

The Carpet and Rug Institute (CRI)

HEPA filtration

Powerful soil removal

Effective edge cleaning

Advance VU500 Upright vacuum

Upright vacuum cleaner delivers powerful performance for medium and low-cut piles.

Advance Adgility 6XP/10XP Backpack vacuums

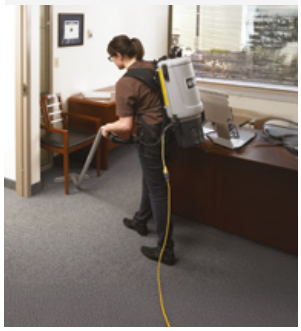
Low-cost efficiency while maximizing operator safety and comfort.

VU200 Cordless stick vacuum

Ergomonic, compact to clean hard to reach areas comfortably with easily swappable lithium-ion battery technology.

VP400 Canister vacuum

Our range of compact dry canister vacuums is engineered for superior performance yet is simple to operate, getting the job done faster, comfortably, and efficiently.



Carpet care

ES300
Self-contained carpet extractor

Ideal for high-traffic carpeted areas
With a dry time of only 30 minutes, this machine is ideal for daytime cleaning in high-traffic areas and helps you extend the lifetime of your carpets. Designed to improve productivity, each cleaning mode can be quickly engaged from the panel.

Innovative LIFT™ technology consists of a single spray nozzle, eliminating streaking and overlaps that lead to longer drying time

Increased tank capacity for extended operation

Meets the highest standards – a seal of approval from the Carpet and Rug Institute

ES4000
Total carpet care system

One machine does it all faster
Upgrade from a fleet of dedicated carpet extractors to one machine that lets you perform everything from dry-sweep, interim, and pre-treat to restorative extraction. The Nilfisk ES4000 lets you clean better and smarter while reducing the total cost of ownership.

Realize productivity improvements of up to 400% over walk-behind sweepers and extractors

Simple OneTouch™ operation for maximum productivity

At just 65 dB(A), the ES4000 is no louder than a person speaking, allowing daytime cleaning without disruption

Hard flooring

SC351
Micro scrubber

Next-generation performance and maneuverability
The Nilfisk SC351 excels in small-areas. With its ability to clean both forward and backward and impressive brush pressure, it's ideal for hard-to-reach areas like behind and between tables.

Intuitive control panel with three operating models for easy operation and minimal training

Onboard battery charger for maximum productivity

No tools are needed for daily maintenance

Also available with a Lithium-Ion battery

Nilfisk Dryft
Stick micro scrubber

Scrub is the new mop. With exceptional mobility, flexibility, and agility, this machine moves backward like a mop and forward like a scrubber—proven to be more efficient than any manual method. It doesn't just clean the surface; it removes dirt and bacteria, delivering a deeper, healthier clean.

The 'S-Motion' of the Nilfisk Dryft means that tricky areas can be cleaned faster compared to traditional walk-behind machines and mops

Uses 1/3 less water than similar products

The orbital scrub head delivers 4,200 oscillations per minute for a deeper clean and wider coverage

SC550
Walk-behind scrubber

The Nilfisk SC550 walk-behind scrubber is designed to help your team thrive and your business succeed. Its ergonomic design makes it comfortable for the operator, and efficient use of resources makes it gentle on the planet.

Simply intuitive, the SC550 makes it easy to get started, with very little training

Every organization is unique, and so is every user – the SC550 adapts to fit all

Designed to decrease the impact on the planet throughout its production and lifecycle

SC4000
Mid-size ride-on scrubber

Clean all areas with ease
With its compact design, the Nilfisk SC4000 is highly maneuverable and easily navigates doorways, up and down aisles, or in open spaces without missing a beat.

Highly versatile deck options make this machine ideal for different floor surfaces

Best-in-class turning radius makes it flexible, low decibel operation makes it quiet

SMARTFLOW™ **ECO**FLEX™

Innovative technologies like SmartFlow™ and EcoFlex™ ensure efficient and responsible cleaning with minimal use of water and detergent

Robotics

SC25
Robotic scrubber

Free-up time and resources with the SC25. Robotic and easy to use, this compact scrubber comes with smart programming functions, efficient water usage and a unique docking station. Keep areas spotless without lifting a finger, except to press 'go'. Manual mode options included.

Light sweeping technology

Efficient water usage

Intelligent programming to operate safely around students during open hours

VP25
Robotic vacuum

A smart and efficient robotic vacuum that helps you save time and resources, supports your workforce, and provides reliable, consistent cleaning.

Designed for outstanding performance on both hard and soft surfaces, it's ideal for high-volume cleaning in various environments such as open workspaces.

3 hours of battery runtime on a single charge, covering an area of 16,000 – 25,800 sq ft

Large 5.3 gallon dust bag enhancing productivity and time efficiency

Certified HEPA filter effectively captures 99.97% of airborne particles
IEC Certification

Make an impact with less impact

All Nilfisk machines are designed to optimize resource use with less impact and reduce unwanted emissions through advanced technology, while our next-generation solutions incorporate recycled materials.

SMARTFLOW™ **ECO**FLEX™

Using the right scrubber can save up to 40% of water during cleaning. EcoFlex™ and SmartFlow™ adjust water, brush pressure, and detergent levels to ensure efficient cleaning with minimal use. Combining them leads to significant water savings, making cleaning both effective and environmentally mindful.

REV™

Random orbital scrubbing technology provides deeper, more uniform cleaning with no swirl marks. It reduces water and chemical use by up to 50% and is effective for daily scrubbing. The technology can even strip floors without chemicals, using water only, leaving you with, higher productivity, quieter operation, greater sustainability, and more flexibility. By using REV to strip floors instead of traditional methods, you can reduce labor by up to 90%—saving time, resources, and effort.

LITHIUM-IONBATTERY

With its fast charging, scalable capacity, and zero maintenance, the Nilfisk Lithium-Ion battery offers a cost-effective, customizable alternative to lead-acid batteries. Optimizing battery runtime enhances cleaning productivity for any application.

A cleaner future

Sustainability is rooted in our strategy integrated across all Nilfisk initiatives. We proudly disclose our ratings within internationally recognized frameworks.

It's not just a job—it's a source of pride

Employee well-being and job satisfaction are crucial for retention and attraction. Automating routine tasks with robotic cleaners reduces strain, improves productivity, and allows employees to focus on more impactful work. This boosts efficiency, lowers labor costs, and minimizes errors, making operations more cost-effective while supporting your team.

EcoVadis.
Nilfisk has received EcoVadis Gold for four consecutive years placing Nilfisk in the 98th percentile of all companies reporting into the platform. EcoVadis is considered the world's largest provider of business sustainability ratings. EcoVadis rates our sustainability based on four key categories: Environmental impact, labor, human rights standards and ethics, and procurement practices.

Science Based Targets.
Initiative provides Nilfisk with a clearly defined path to reduce greenhouse gas emissions limiting global warming in line with the Paris Agreement goals.

Carbon Disclosure Project (CDP).
We disclose our ongoing commitment to climate change and water security through CDP, an esteemed international non-profit organization. In 2024, we maintained our A-score for the fifth consecutive year.

Keep your business moving

When you need support, we're here to provide advice, service, and innovative solutions to help you tackle every cleaning challenge.

Nilfisk Service Solutions helps ensure that your cleaning equipment is ready to perform whenever you need it, with maximum performance and minimal downtime.
With the help of our skilled technicians, you can maximize the long-term viability of your cleaning operation across the entire equipment lifecycle – and keep your business moving.

Optimize, protect, and keep. Key to long-term benefits
Receiving regular service and maintenance ensures optimal performance over the lifecycle of your cleaning machine. Moreover, a service agreement maximizes and protects your investment's value while controlling costs, increasing your ROI.

Optimize uptime with proactive maintenance, timely repairs, and effective restoration – all from the people who built your machine

Protect your equipment's value with documented service and Nilfisk-certified spare parts

Keep maintenance costs low and predictable, and extend your equipment lifespan

According to our stats, **75%** of all repairs are fixed on the spot.

Joined efforts for a cleaner learning environment
By collaborating closely with you, we ensure that you receive exceptional support. This will help you maintain the consistently high standard of cleanliness that your students and staff deserve.

NILFISK WARRANTY
