Applause for a worthy cause

We donate **$25** for each **VP300 HEPA PINK** sold

National Breast Cancer Foundation
CORPORATE FUNDRAISER

2024

Towards zero

NILFISK

Together, we can help beat breast cancer

Breast cancer is the most commonly diagnosed cancer amongst women in Australia. 20,000 Australians will be diagnosed with breast cancer each year. 9 Australians still lose their life to breast cancer every day.

We are again joining the National Breast Cancer Foundation (NBCF) in their mission "Towards Zero".

For every VP300 HEPA PINK sold, Nilfisk donates $25 to NBCF.

Your support for NBCF helps fund world-class research that makes a difference.

Since 1994, NBCF has invested around $200M into research projects, and in this time, death rates from breast cancer in Australia have improved by over 40%.

This year NBCF is funding research projects to further understand risk factors, develop new ways to treat and monitor breast cancer and improve breast cancer outcomes.

Everyday superpowers

The limited edition **VP300 HEPA PINK** is ideal for institutions, healthcare, hotels, retail and offices and comes with:
