

Unleash your fleet's potential

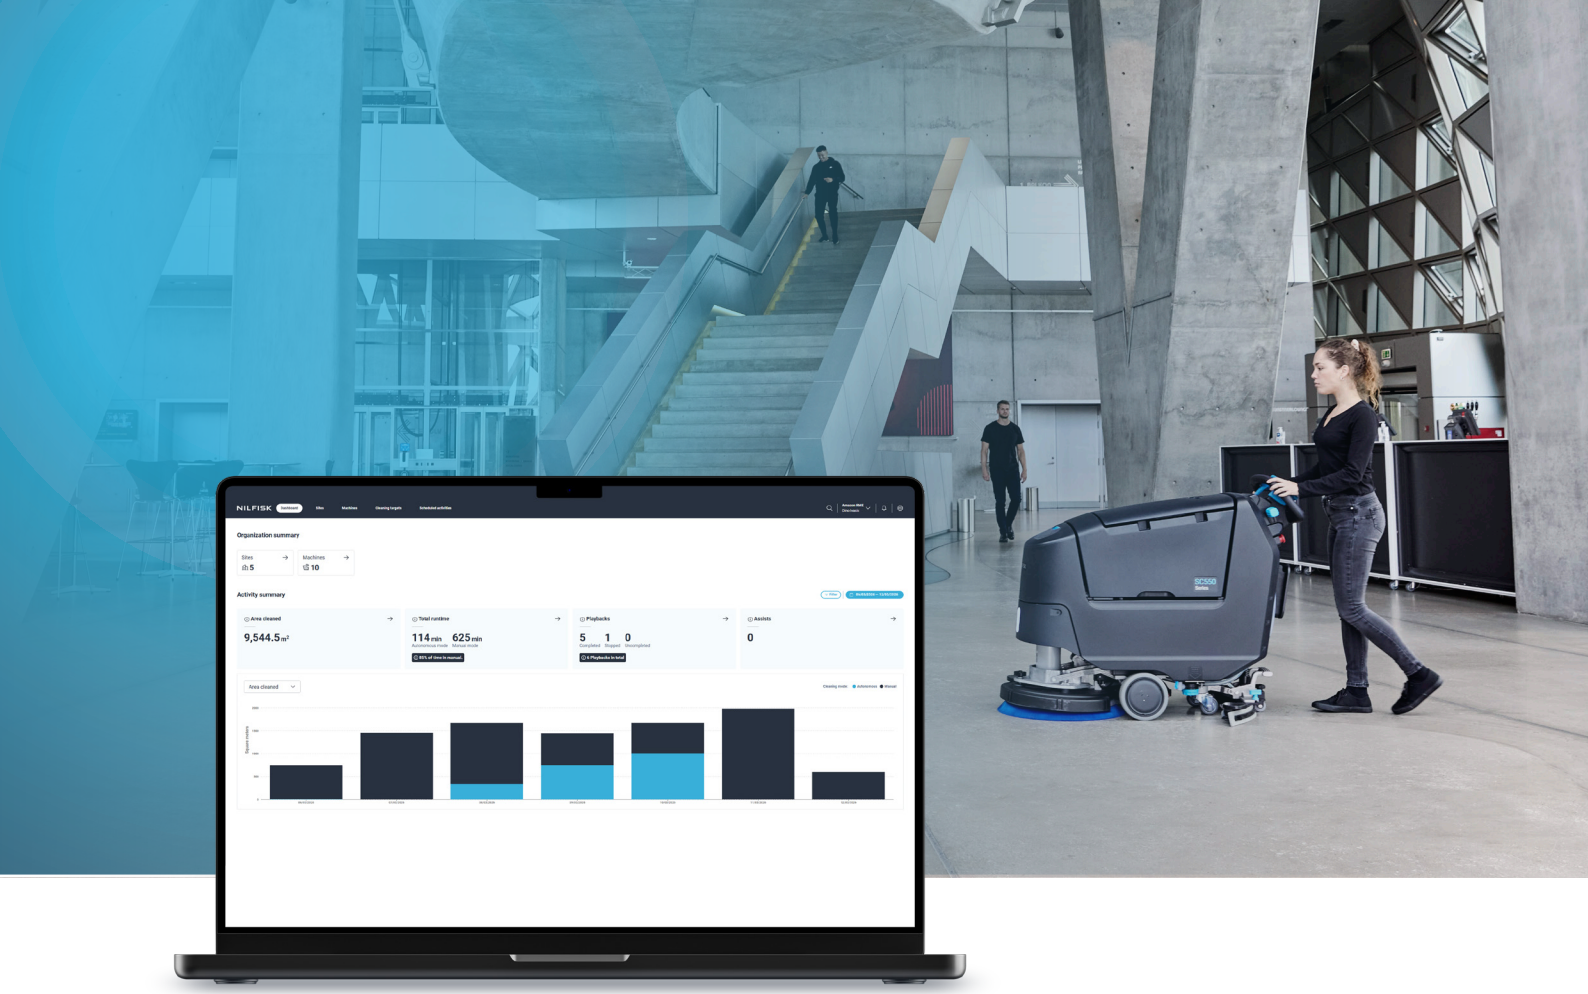

Get more from your cleaning fleet - turn data into action. Nilfisk My Fleet gives you real-time visibility, powers performance, and maximises uptime - all from a single, unified platform.

Access My Fleet anywhere. From app or via web.

With My Fleet, you get real-time insights into your fleet, track performance and streamline workflows, helping you run each shift efficiently and effectively.

You can track repairs and service history, submit requests directly, get cost clarity and receive proactive maintenance and battery notifications to prevent mid-shift failures - all in one place. You can also make insight-powered decisions to improve operations and cleaning results, with clear documentation for stakeholder reporting.

Top features and benefits include:

Locate your machines instantly and monitor their movement.

Get real-time visibility into cleaning activities and machine performance, including sessions, runtime and areas cleaned.

Easily track cleaning targets and shift completion from your dashboard.

Receive maintenance alerts to prevent downtime and extend machine lifespan.

Connect directly with Nilfisk Service to submit service requests through the platform, streamlining support and communication while reducing delays and unnecessary repeat visits.

Get a unified view of your cleaning fleet
Manage your machines anytime, anywhere via mobile app or web portal.

Set cleaning goals and track performance
Identify underutilised or inefficient machines that quietly increase costs.

Turn cleaning data into proof of performance
Build trust with customers and stakeholders.
